PORTFOLIO

EXPERIENCE

Oracle Cloud Infrastructure

Senior Software Developer

Mar 2022 — Present

Bengaluru, India

- › Led global rollout of AI Video Analysis, AI Streaming, AI Biometric & Face Detection — products serving millions of users.
- › Developed end-to-end AI Document Understanding solutions, improving key-value extraction by 40% and barcode scanning efficiency by 60%.
- › Built a cross-functional annotation review tool, reducing annotation time by 50% across OCI teams.
- › Designed and deployed AI product infrastructure, enhancing scalability and cutting deployment time by 30%.

Teradata India Pvt. Limited

Software Engineer

Sep 2020 — Mar 2022

Hyderabad, India

- › Built an integrated Black Duck security pipeline, reducing vulnerabilities by 90% across multiple products.
- › Automated driver onboarding by integrating ServiceNow with AWS, streamlining provisioning for 1,000+ users.
- › Developed a remediation pipeline for Log4J, securing 500+ Teradata instances from critical exploits.
- › Created a unified pipeline dashboard, improving visibility and reducing debugging time by 40%.

Amazon India Pvt. Limited

Software Developer Intern

Sep 2019 — Jun 2020

Chennai, India

- › Built an automation system for testing Amazon Relay across India, Japan, and Australia.
- › Improved pipeline stability from 40% to 93% and automated driver onboarding using AWS.
- › Enhanced Amazon Relay website features with manual and automated testing for Relay 2.0.

TECHNICAL WRITING · MEDIUM / STACKADOMIC

Published 30+ technical articles on Stackademic (Medium) covering cloud infrastructure, system design, and frontend engineering — reaching 129+ followers.
